Any serious or dangerous fault will be immediately recorded as a failure; the test will still continue finally returning to the driving test centre. - You **may** be asked to do an emergency stop; you will need to demonstrate that you can stop as in an emergency, promptly and under control (avoid skidding).
- You will be asked to carry out two manoeuvres one of which will be your own choice, in both cases you will be expected to demonstrate your ability to manoeuvre your vehicle under control and with good all round effective observations, giving consideration to other road users and pedestrians.
- You will be asked on a number of occasions to pull up on the left at a safe and convenient place, as if a fare is either going to get in or out of your vehicle. Avoid parking next to lampposts and trees - this could be potentially hazardous for your passenger.
- Whenever you have been stationary at the side of the road, remember your important safety check - check your blind spot (look over your right shoulder) before pulling away.
- You need to use all your mirrors effectively (interior and exterior) and at the appropriate times, you should demonstrate that you are aware of what is happening around your vehicle at all times.
- You need to signal correctly and in good time to let other road users know your intention - other road users need to see and understand what you plan to do.
- You will be expected to understand and comply with traffic signs and road markings, as they are there to help you anticipate and plan your journey. You will also need to see and react to signals given by the police, traffic wardens etc. and signals given by other road users.
- You must be able to demonstrate your ability to make progress when the speed signs and the road and traffic conditions dictate it is safe to do so. Equally it is important to demonstrate that you recognise and comply when in a lower speed limit areas.
- Watch your separation distance from the vehicle in front and also your separation distance from parked cars.
- Use sound judgement and planning when overtaking, meeting oncoming vehicles and when turning right in front of oncoming traffic. At no time be in a situation where you cause another vehicle to brake or swerve to avoid you.
- Demonstrate that you are aware of other road users at all times, plan ahead predict how the actions of others will affect your driving and react in good time. Be aware of vulnerable road users such as pedestrians, cyclists, motorcyclists etc. act in good time, rather than at the last moment.

**It is important that you read the Highway Code and be familiar with your vehicle. It is strongly advisable to consider taking professional instruction prior to taking the test.**

- Having satisfied yourself that the wheelchair is secure is if to start a journey, the reverse the entire procedure.
